MANNING'S Pittsfield Numerical Street Guide

Householder, Telephone & Property Owner List 1964

Copyright 1964, by H. A. Manning Co. of N. Y., Inc.

CONTAINING A FULL LIST OF STREETS AND ROADS
WITH DESCRIPTION OF LOCATION, INTERSECTING STREETS
AND THE DWELLINGS AND STORES LOCATED THEREON.

Residences and places of business are designated by their street numbers numerically arranged. Where the houses are not numbered, the householders are arranged in the order that they appear on the street. (L) and (R) indicates houses on left or right side of street (tr) after name indicates trailer. Figures or letters in parentheses following names indicate number of room or floor in building.

The symbol Δ denotes householders and places of business reporting telephones. The symbol \odot following householders name indicates that information has been secured that the house is owned by some member of the family. The publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes. No responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

"No Report" indicates that enumerator was unable to get complete information at the address by personal call, telephone or mail. After the name of a street the word "street" is omitted. For complete list of abbreviations see first page of alphabetical section. Indexing by letter and number at end of street description refers to map number location, if map is included.

—means TELEPHONE SUBSCRIBER

Every City Must Have a Directory

....not only to give the names, business and addresses of its citizens, but also to give that character of the progressiveness that would record the information of its people and institutions for present usefulness and historical purposes.

The biographical history of the masses is contained in the City Directory and no other place. That stamps its importance to the individual, business and organization. To make your history and benefit from its purpose to locate and identify you, watch your Directory registration to see that it accurately records your positions in life from year to year.

The merchants and organizations that sponsor and use this service will be glad to have you consult their Directories so that you may see that your information is correctly and completely listed. We will appreciate your suggestions.

DO YOU KNOW ???

THAT every person over 18 years of age, his occupation, marital status and address is listed in the City Directory?

YOU can profit by the use of the City Directory as an efficient business and personal tool for the location and identification of your business prospects and customers?

ARE you correctly and adequately listed in the City Directory? If not, contact us for the next edition.

IN the City Directory is given the most complete guide to streets, householders and house numbers—and the **ONLY** complete list of businesses, professions, manufacturers and organizations of your city?

THE City Directory's importance to the general public is emphasized when you realize that its information, in over 60% of the names registered, is unobtainable elsewhere and in no other medium of information can it be found in full detail?

CITY history, progress and public spirit is reflected in the City Directory and the story it presents of you and your community?

DIRECTORY information is more complete, correct and convenient to all people than any other information guide to a city, its businesses and people?

ARE CITY DIRECTORY ADS WORTHWHILE???

To answer this question, analyze the publication or advertising medium by asking these questions.

1. HAS IT A VALUE?

Any medium must have value, either in dollar return, reader interest or usefulness before it can have an advertising value.

The City Directory has a high definite value. People must have information it can give and they therefore pay a good price for it.

2. IS IT ACCESSIBLE AND WELL KNOWN?

The medium must be known to the general public and be easily accessible.

The City Directory is accessible to the public 350 days a year in most public offices, institutions, drug stores, banks, filling stations and places that use and give information. It is the recognized and universal informational service to practically every city and large town in the world.

3. DOES IT PERFORM A SERVICE?

Every medium must perform some service to warrant its existence.

The City Directory performs a most valuable service by providing, in the only complete form, an informational guide and catalogue to a city and its people.

4. WHAT IS THE LENGTH OF LIFE OF THE MEDIUM?

The longer the ACTIVE LIFE of the medium, the better it is.

The City Directory has one of the most active and long lives of any medium. It is available approximately 12 hours a day, 350 days a year and is seldom filed away or thrown out before two years.

5. WHAT IS ITS PRESTIGE?

A medium must have prestige if it has public recognition and acceptance.

The City Directory is recognized as a necessary public service and as such has very high prestige in business, professional and governmental affairs.

6. WHAT IS ITS CIRCULATION?

Not only how many people see it but how many times they see it during the ACTIVE LIFE of the medium determine its circulation rather than just the number of copies issued.

The average City Directory is used three times a day, is available 350 days a year to all and is bought and used by practically every type of business, profession and government agency. Thus 500 copies of your directory would have $500 \times 3\frac{1}{2} \times 350 = 612,500$ yearly circulation or consultations.

7. WHAT ARE ITS ADVERTISING PRICES?

Comparative points as outlined previously determine its value in advertising dollars.

The City Directory advertising prices are among the lowest in comparison with other yearly, monthly, daily or weekly mediums.

THIS IS WHY YOU WILL MAKE A GOOD INVESTMENT IN CITY DIRECTORY ADVERTISING.
